

**Location and movement– 2025 Checkpoint Primary Math Stage 5**

1. 1/No.8

Here is a shape made of squares.

Shade **two** more squares so that the shape has exactly one line of symmetry. [1]

2. 1/No.11

Here is a shape drawn on a grid of squares.

The shape is translated 3 squares to the left.

Draw the translated shape on the grid.

[1]

3. 1/No.15

Here is a coordinate grid with point A marked.

Plot a **different** point that has the same y-coordinate as A.  
Label the point B.

$A(3, 2)$   
 $B(5, 2)$

[1]

4. 2/No.13

Draw a ring around **each** point that is closer to the x-axis than (5, 3).

(5, 2)

(4, 3)

(6, 2)

(2, 4)

(5, 5)

[1]

5. 2/No.14

Here is a shape drawn on a grid of squares.

The shape is reflected in the horizontal mirror line.

Draw the reflection on the grid.

[2]

6. 2/No.31

Four identical rectangles are drawn on a coordinate grid to make a larger rectangle.

The point (6,4) and the origin are vertices of the larger rectangle.

Write the coordinates of the point marked with a cross.

Co-ordinates x ; (3, 4)      ( 3 , 4 ) [1]  
 Co-ordinates are given (x, y)
